Privacy Assurance

We will not willfully disclose any individually identifiable information about you to any outside source without your express consent.

The TTG Transformations, LLC (TTG) is committed to protecting the personal information you choose to share with us. Below you will find our privacy assurance and some additional information about how we gather information about our registered users, why we gather it, and what we do with it. Please see Terms and Conditions of Use for more information about the use of TTG site.

How does TTG use cookies?

TTG uses cookies to facilitate the login process for you to access sections that require registration to post or contribute to the site. When you register in these sections, we assign a unique user id to you and we place a cookie on your computer, which will remind our system of that USER ID the next time you visit the site. This cookie allows you to access the areas of the site that require registration without having to log on multiple times. If you choose to log out, the cookie we set in registration will be deleted and we will then set another cookie like it on your computer next time you log in.

Please note: Nothing in a cookie allows anyone to identify you individually. Your computer is assigned a number and that number is tracked using the cookie. This number is only meaningful in the context of our secure database system and your personalized version of TTG site.

What information do we gather?

The only individually identifiable information that we collect about you is that which you provide to us through registration and submission forms, polls and surveys that you choose to fill out. This information will be closely protected and used for internal purposes only. We will never willfully release your personal information to any third party other than vendors who provide us with web and other technology services (see more about third party vendors under "Registrant Donor Database" below.)

We also collect information about aggregate site usage. Statistics that we gather about unique visits, repeat visits and page views are all based on IP address, not on your individual activities.

Donating through TTG:

When you donate through TTG online you submit confidential credit card information, contact information, and acknowledge whether you would like to be contacted by TTG via email in the future. We recognize the importance of respecting the integrity of this material and limit access only to personnel authorized to process your request.

You may also choose to make a specific donation toward an individual or institution. When you make a donation of this type, the amount of your gift is shown only on your receipt. The person or institution you designate will receive an acknowledgment ecard or regular-mail card in your name if you choose to send one. We collect this additional contact information in order to honor your request to send an acknowledgement. The information is not used for any direct mail or email databases or solicitations, nor is it shared with any third parties. Email-communications from TTG are only issued through the direct consent of each unique visitor (known as "opting in").

Online donors are also offered the option of choosing to let TTG contact them via email in the future.

Security

This site has security measures in place to protect the loss, misuse and alteration of the information under our control. This includes a firewall and 24 monitoring of site activities by our hosting service provider as well as 128-bit SSL encryption (where allowable by law) on all transaction oriented

operations between you and TTG via our transaction service provider. While we use SSL encryption to protect sensitive information online, we also do everything in our power to protect user-information off-line. All of our users' information, not just the sensitive information mentioned above, is restricted in our offices. Only employees who need the information to perform a specific job (for example, our billing clerk or a customer service representative) are granted access to personally identifiable information. Our employees must use password-protected screen-savers when they leave their desk. When they return, they must re-enter their password to re-gain access to your information. Furthermore, ALL employees are kept up-to-date on our security and privacy practices. Every quarter, as well as any time new policies are added, our employees are notified and/or reminded about the importance we place on privacy, and what they can do to ensure our customers' information is protected. Finally, the servers that we store identifiable personal information on are kept in a secure environment, behind a locked cage.
